TAG PACIFIC HALF YEAR RESULT

Sydney – 25 February 2011 – Tag Pacific Limited (ASX: TAG) (NZX: TPC)

The Tag Pacific Group recorded a significantly stronger underlying trading result than in the prior corresponding period with revenue from continuing operations up from A$22.4 million to A$36.9 million for the half year to 31 December 2010. However, the company has reported a net loss after tax and minorities of A$142,197 for the half year principally due to a negative fair value movement of A$1.05 million in relation to the investment in iSoft Group Limited.

Revenue from trading subsidiaries was noticeably stronger and the EBITDA generated by them was well in excess of the prior corresponding period. An overview of the performance of Tag's investments for the half year is set out below.

Power investments

Across the various investments in the power sector which trade under the **MPower** umbrella, an aggregated EBITDA of A$2.95 million was generated for the half year, a very pleasing result in comparison to EBITDA of A$1.56 million in the prior period.

The historically robust **M+H Power Systems**, whose activities in Australia, New Zealand and the Pacific Islands traverse stored, portable, emergency and green power did not disappoint with impressive gains generated in the solar power area. Fuelled by an increasing interest in solar generated power there was robust demand in solar products during the half year. While the immediate outlook for this area appears to be very positive the company is cognisant of the competitive pressures and the risk of changes to government policy. The strength of M+H Power Systems lies in the diversity of its income streams and in addition to the significant growth of the green power division there have also been advancements made during the period in its other distribution activities which benefited from the introduction of new products and initiatives.

Advanced Power's engineered solutions gained momentum as production for the A$32 million Gorgon contract went into full swing. In parallel, Advanced Power has been progressively building its resources and leveraging its key capabilities, with a focus on key growth areas including cogeneration power systems.

In January 2011 the business relocated to a large new facility in Sydney which replaces Advanced Power's out-dated premises and will enhance the company's capability and expertise in design, commissioning, maintenance and the delivery of turnkey power systems. At the same time, the new premises will provide upgraded regional distribution facilities and a marked improvement in the production line for portable power generation equipment.

During the half year **Solaris Technology** was acquired, becoming part of the group in mid-November 2010. Solaris has extensive experience in the solar power sector through its specialisation in the design, construction and integration of solar power systems for both residential and commercial applications. In tandem with the M+H Power Systems distribution activities on the one hand and Advanced Power's sophisticated power engineering solutions on the other, Solaris is strategically positioned to enhance MPower's ability to secure commercial opportunities requiring alternative forms of power as the demand for renewable energy increases.

All in all, the investments in power are performing well and are showing considerable promise.

Technology investments

The Tag Group's investment in **iSOFT Group** (ASX: ISF) caused a A$1.05 million negative impact to Group EBITDA, a reversal of A$2.38 million to the previous corresponding period when a gain of A$1.33 million was reported. The iSOFT Group's share price has continued to languish as the market awaits greater clarity on the company's future.

Tag's equity accounted investment in **Unique World Group** delivered an after tax contribution of A$0.20 million for Tag's 38% interest. The Unique World Group EBITDA result of A$1.10 million for the half year was significantly higher than the EBITDA in the prior period of A$0.50 million and was primarily driven by Unique World's consultancy business which has started to reap the benefits of earlier hard work to develop a pipeline of projects with top tier clients. Unique World has successfully positioned itself as a key strategic adviser to its clients and in the process has transitioned its business to longer term value enhancing engagements. With its ever increasing professionalism and given the scope and scale of its current projects the outlook for Unique World's consultancy business is very positive and continued growth and improvement in results is anticipated.

RecordPoint's proprietary software has gained ground and is beginning to make inroads into its niche records and information management market. Software activities are run independently from other activities within the Unique World Group and as with all software companies in the early stages of their development, the outlook for RecordPoint is difficult to forecast with any degree of certainty. However RecordPoint appears to be on the cusp of incrementally improving fortunes as it moves to becoming a key player in the field of records management.

Interior building products investments

Tag's investments in the interior building products sector were sold in May 2010 and are treated as discontinued operations in the financial statements.

Property investments

The Tag Group has a majority interest in the **Power Property Unit Trust** which owns a commercial property in Melbourne leased to a group company. The property was revalued at 31 December 2010 to reflect the current market value of A$1.805 million. The positive movement of A$0.79 million before minority interests has been recognised in equity, but not through the income statement in accordance with the applicable Australian Accounting Standards.

Summary

The Tag Group's financial position remains strong with total equity of A$26.6 million and no borrowings at a head office level. There is no net debt across the group and cash balances remain strong. As previously foreshadowed, the cash flow from operating activities was negative during the period under review, however this was in line with forecast and primarily reflected timing differences on contracts, the benefits of which were recognised in the 2010 year end results.

The Tag Group is focussing on areas which best suit current market circumstances and whilst seeking to extract structural efficiencies and operating synergies, will continue to pro-actively seek to expand its corporate development program.

Half Year Financial Report
31 December 2010

DIRECTORS' REPORT

The directors submit the financial report of Tag Pacific Limited and its controlled entities (the Group) for the half year ended 31 December 2010. In order to comply with the provisions of the *Corporations Act 2001*, the directors report as follows:

Directors

The names of directors who held office during the half year and until the date of this report are as follows. Directors were in office during and since the end of the half year unless otherwise stated:

Peter Wise
Gary Cohen
Robert Constable
Robert Moran
Richard Peterson
Gary Weiss

Review of Operations

The Group recorded a net loss after providing for income tax and eliminating non-controlling interests of A$142,197 for the half year ended 31 December 2010 (31 December 2009: net profit of A$1,878,795). Overall the results from the operating subsidiaries within the Group were positive and pleasing given the challenging economic conditions which continued to prevail during the period. The Group's listed investments were subject to deterioration during the first half with a A$1,049,241 fair value loss being recorded and this had a material effect on the result for the period (31 December 2009: fair value gain of A$1,335,020).

Dividends Paid or Recommended

No dividend was paid during the period in respect to the year ended 30 June 2010 (2009: A$515,145). An interim dividend has not been declared for the half year ended 31 December 2010 (2009: no dividend declared).

Rounding off of Amounts

The company is a company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order amounts in the directors' report and the half year financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

NOTES TO THE HALF YEAR CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2010

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

The half year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half year financial report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

(b) Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of selected non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The company is a company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order amounts in the directors' report and the half year financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those adopted and disclosed in the company's 2010 annual financial report for the financial year ended 30 June 2010, except for the impact of the Standards and Interpretations described below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

The company has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current reporting period:

- Amendments to AASB 5, 8, 101, 107, 117, 118, 136 and 139 as a consequence of AASB 2009-5 *Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project*.

AASB 2009-5 introduces amendments into Accounting Standards that are equivalent to those made by the IASB under its program of annual improvements to its standards. A number of the amendments are largely technical, clarifying particular terms, or eliminating unintended consequences. Other changes are more substantial, such as the current/non-current classification of convertible instruments, the classification of expenditures on unrecognised assets in the statement of cash flows and the classification of leases of land and buildings.

The adoption of these amendments has not resulted in any changes to the company's accounting policies and has no affect on the amounts reported for the current or prior periods.

(c) Derivative financial instruments

The Group enters into financial instruments to manage its exposure to foreign exchange risk, including foreign exchange forward contracts.

NOTES TO THE HALF YEAR CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2010

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Derivatives are initially recognised at fair value at the date the derivative contract is entered into and are subsequently remeasured at their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated as effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship. The Group designates certain derivatives as either hedges of the fair value of recognised assets or liabilities or firm commitments (fair value hedges), hedges of highly probable forecast transactions or hedges of foreign currency risk of firm commitments (cash flow hedges).

A derivative with a positive fair value is recognised as a financial asset; a derivative with a negative fair value is recognised as a financial liability.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Hedge accounting
The Group designates certain hedging instruments, which include derivatives as either fair value hedges or cash flow hedges. Hedges of foreign exchange risk on firm commitments are accounted for as cash flow hedges.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item.

Fair value hedge
Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recognised in profit or loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The change in the fair value of the hedging instrument and the change in the hedged item attributable to the hedged risk are recognised in the line of the statement of comprehensive income relating to the hedged item.

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expires or is sold, terminated or exercised, or when it no longer qualifies for hedge accounting. The fair value adjustment to the carrying amount of the hedged item arising from the hedged risk is amortised to profit or loss from that date.

Cash flow hedges
The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, and is included in the 'other gains or losses' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to profit or loss in the periods when the hedged item is recognised in profit or loss, in the same line of the statement of comprehensive income as the recognised hedged item. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously accumulated in equity are transferred from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

NOTES TO THE HALF YEAR CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF YEAR ENDED 31 DECEMBER 2010

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Hedge accounting is discontinued when the Group revokes the hedging relationship, when the hedging instrument expires or is sold, terminated or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

(d) Property, plant and equipment
Each class of property, plant and equipment is carried at cost or fair value is indicated less, where applicable, any accumulated depreciation and impairment losses.

Land and buildings
Freehold land and buildings are shown at their fair value being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction, based on a valuation by external independent valuers, less subsequent depreciation for buildings. Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity, all other decreases are charged to the statement of comprehensive income. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the statement of comprehensive income and depreciation based on the asset's original cost is transferred from the revaluation surplus to retained earnings. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

NOTE 6: SEGMENT INFORMATION

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The Tag Group's reportable segments are organised into 3 major sectors – power investments, fair value investments and other investments. These sectors are the basis on which the Tag Group reports its reportable segment information. The principal products and services of each of those sectors are as follows:

- Power investments – consists of MPower Group Pty Limited, M+H Power Systems Pty Ltd, M+H Power Systems Ltd, Advanced Power Pty Ltd and Solaris Technology Pty Ltd from 16 November 2010 (all 59.3% owned at 31 December 2010). This grouping is a leading provider of innovative and dependable power solutions for use in all manner of emergency, back-up, generated and renewable power situations in Australia, New Zealand and Fiji.
- Fair value investments – consists principally of Tag's investments in iSoft Group Limited. iSoft Group Limited is a health information technology company listed on the ASX with operations in Australia and a number of overseas countries.
- Other investments – consists principally of Tag's investments in Unique World Group Pty Limited and the Power Property Unit Trust. Unique World Group Pty Limited is an IT consultancy and software development group providing products and services leveraging the Microsoft platform to corporate and government organisations across New South Wales, Victoria and the Australian Capital Territory. The Power Property Unit Trust owns a property occupied by a subsidiary of MPower Group Pty Limited in Melbourne, Victoria.

NOTE 8: ACQUISITION OF SUBSIDIARY

On 15 November 2010 MPower Group Pty Limited completed its purchase of Solaris Technology Pty Limited. As a result, Solaris Technology Pty Limited is now consolidated by the Tag Group from 16 November 2010. Solaris Technology Pty Limited has extensive experience in the solar power sector through its specialisation in the design, construction and integration of solar power systems for both residential and commercial applications. The acquisition is part of the Group's strategy for deeper involvement in renewable energy solutions. Through acquiring 100% of the issued capital of Solaris Technology Pty Limited, the Group has obtained control of the company.

d) Impact of acquisition on the results of the Group

Included in the profit for the interim period is a net profit of A$117,184 attributable to Solaris Technology Pty Limited. Revenue for the period includes A$1,239,509 in respect of Solaris Technology Pty Limited. Any inter-group transactions between the related parties from 16 November 2010 have been eliminated on consolidation.

Had Tag Pacific Limited taken control of Solaris Technology Pty Limited on 1 July 2010 the revenue for the period would have increased by A$4,257,454 while the net profit for the period before non-controlling interest would have increased by A$21,803.

e) Consideration transferred

	A$'000
Consideration paid in cash	900
Consideration refundable	(231)
Deferred consideration payable (i)	1,349
Total	2,018

Independent Auditor's Review Report to the Members of Tag Pacific Limited

We have reviewed the accompanying half-year financial report of Tag Pacific Limited, which comprises the condensed statement of financial position as at 31 December 2010, and the condensed income statement, the condensed statement of comprehensive income, the condensed statement of cash flows and the condensed statement of changes in equity for the half-year ended on that date, selected explanatory notes and, the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year as set out on pages 3 to 19.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Tag Pacific Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Tag Pacific Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Tag Pacific Limited is not in accordance with the *Corporations Act 2001*, including:

(a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2010 and of its performance for the half-year ended on that date; and

(b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
